LEGAL STRUCTURE	LLC	▼ PLANNED START DATE
07/28/2026	INDUSTRY	Electric Vehicle (EV) Retail & After
ONE-SENTENCE BUSINESS DESCRIPTION		

GreenRide Electric Bikes is a customer-focused electric vehicle showroom offering high-quality electric bikes, financing options, accessories, maintenance services, and exceptional after-sales support to promote affordable and sustainable transportation.

Example: Premium electric bike showroom with workshop + accessories.

2. Executive summary

Write this last, show it first. Keep to half a page when printed.

THE OPPORTUNITY

The demand for electric bikes is growing rapidly due to rising fuel prices, increasing environmental awareness, and government incentives promoting electric mobility. Consumers are looking for affordable, eco-friendly, and low-maintenance transportation solutions for daily commuting. Our showroom aims to meet this demand by providing a wide selection of reliable electric bikes along with financing, servicing, and customer support under one roof.

Example: City commuting is shifting to e-bikes; local buyers lack a trusted showroom + service centre.

WHAT YOU SELL

- 4 Riding accessories such as helmets and safety gear
- 5 Annual maintenance and repair services
- 6 Insurance and financing assistance
- 7 Extended warranty and after-sales support

WHO BUYS

- 3 Delivery executives and gig workers
- 4 Small business owners
- 5 Environmentally conscious consumers
- 6 Families looking for economical transportation

WHY YOU WIN

- 1 Certified technicians and genuine spare parts
- 2 Customer-focused buying experience
- 3 Strong local marketing and digital presence
- 4 Fast delivery and excellent warranty support

FUNDING / GOAL ASK (IF ANY)

Estimated Funding Requirement: \$150,000 (or equivalent based on the target market).

If self-funded, the business will utilize the owner's investment while exploring bank loans or government EV financing schemes to support future expansion.

3. Company description

MISSION

To accelerate the adoption of sustainable transportation by providing high-quality electric bikes, exceptional customer service, and reliable after-sales support at competitive prices.

VISION (3-5 YEARS)

To become one of the most trusted electric bike dealership networks in the region, recognized for customer satisfaction, innovation, and service excellence. Within five years, the company aims to expand to multiple showroom locations while building a strong online sales platform and authorized service network.

BACKGROUND / STORY SO FAR

The business was established to provide customers with a one-stop destination for purchasing electric bikes, accessories, financing, and professional maintenance services. By partnering with trusted manufacturers and focusing on customer satisfaction, the company aims to make electric mobility accessible to individuals, families, and businesses.

WHY THIS LOCATION

The showroom will be located in a high-visibility commercial area with excellent road connectivity and convenient parking. The location has a large population of daily commuters, students, office professionals, and delivery riders, making it ideal for attracting walk-in customers. Easy accessibility and proximity to residential and commercial neighborhoods will help maximize sales opportunities.

Goals for year 1

GOAL 1 (MEASURABLE)

Sell 300 electric bikes during the first year while maintaining a customer satisfaction rating of 90% or higher.

GOAL 2 (MEASURABLE)

Achieve \$600,000 in annual revenue and reach operational break-even by the end of Year 1.

GOAL 3 (MEASURABLE)

Build a customer base of 1,000+ registered customers, establish 10 corporate or institutional partnerships, and grow

4. Market analysis

MARKET SIZE & TRENDS

- 1 Growing consumer demand for affordable electric mobility.
- 2 Expansion of charging infrastructure.
- 3 Government incentives encouraging EV adoption.
- 4 Increased financing options for electric vehicles.
- 5 Rising demand from delivery and logistics companies.

Example: UK e-bike sales growth; local council cycle schemes; fuel costs driving adoption.

IDEAL CUSTOMER PROFILE

Students and college commuters
Office professionals
Delivery executives and gig workers
Small business owners
~~Families seeking economical transportation~~

COMPETITORS (NAME + WEAKNESS)

Competitor	Weakness
Local EV Showrooms	Limited model selection and inconsistent after-sales service.
Traditional Motorcycle Dealers	Less focus on electric mobility and limited EV expertise.
Online EV Sellers	No physical test rides, delayed service support, and limited customer interaction.

YOUR POSITIONING

The business will position itself as a trusted, customer-focused electric mobility showroom offering quality products, transparent pricing, financing assistance, professional servicing, genuine spare parts, and an outstanding ownership experience. Customers will benefit from a complete solution—from purchase to maintenance—all under one roof.

SWOT (STRENGTHS, WEAKNESSES, OPPORTUNITIES, THREATS)

Threats
Intense competition from established dealerships.
Rapid technological changes.
Supply chain disruptions.
Changes in government incentives or regulations.
Price competition from new market entrants.

5. Products & services

PRODUCT / SERVICE LINES

- 1 Insurance Assistance
- 3 Annual Maintenance Contracts (AMC)
- 4 Battery Replacement
- 5 Repair & Maintenance
- 6 Genuine Spare Parts
- 7 Home Pickup & Delivery for Service (Optional)

PRICING APPROACH

The company will adopt a competitive value-based pricing strategy, balancing affordability with premium customer service. Pricing will be based on:

Manufacturer Suggested Retail Price (MSRP)
